TRI-COUNTY SCHOOL CORPORATION 

2012-2013 Strategic Plan

- 1. We will continue to improve the elementary literacy program.
- 2. Tri-County Schools will communicate and demonstrate that academics is the number one priority for students K-12
- 3. Tri-County Schools believe that there is more to learning than achieving an A or B. The greatest success for students is to be engaged in learning and actively reaching for their personal best.
- 4. The Tri-County School Board wants to emphasize that each staff member plays a role in rigor, relevance and relationship with each student. The success of each TC student is impacted by the role that each staff member has with each student.
