

Lafayette's Safe and Effective Survival Swimming Program may be coming to **TRI-COUNTY HIGH SCHOOL!**

Miss Audrey goes beyond traditional swimming instruction by teaching children **self-rescue techniques** designed to help them survive should they find themselves in the water alone.

Your student will have a **daily**, private 10-minute lesson. In 4 to 6 weeks, they will emerge with confidence and competence in the water.

Experience
teaching
children with
special needs

For children
6 months -
7 years old!

2nd

If you want to commit to the session, let Missi Tyler know by emailing: tylerml@trico.k12.in.us

IF WE GET 12 COMMITTED STUDENTS BY JAN1, 2027, WE WILL SCHEDULE THE SESSION.

5-STAR GOOGLE REVIEWS!

She helped my 6 year old learn how to swim properly and after her lessons I am now far more comfortable with my kid in the water. She was very patient with her teaching methods, normally my daughter doesn't continue an activity when she starts crying about something. However, in this case my daughter accidentally got water up her nose and had a cry, but Audrey was very calm, patient, and got my daughter to have the courage to calm and continue with the rest of her lesson that day. I give her a 10/10 for knowing how to properly hand and teach children how to swim. 100% your kid will know how to swim after her lessons.

Miss Audrey is so calm and patient with all ages. My child started at 11 months and learned how to survival float. She is now 17 months and is learning to swim. Miss Audrey is certified in many aspects of what is needed for your little one. It's not just a swim class, it's a survival class.

Kourtney W.

Miss Audrey did a wonderful job teaching our children how to not just swim but also to save themselves from drowning. We are so grateful for her! Her methods work. I would have went straight to her had I known how successful it would have been versus trying out other swimming lessons.

Karissa M.

Miss Audrey has been the absolute best. My daughter started when she was 10 months old and she's been a rockstar in the water getting to her float. The peace of mind these swim lessons have brought me is worth so much. Miss Audrey is so patient and sweet with her. I've recommended so many people to her. Could not be happier!

Trish T.

Miss Audrey is a wonderful swim lesson teacher! She is very communicative and is so understanding and flexible with the kids. My 2 yr old son absolutely loved going to see Miss Audrey and was floating & "swimming" independently by the end our session!

Elizabeth H.

We took our 1 year old to Miss Audrey in 2022. I was skeptical and honestly thought it was too good to be true. How could a one year old - or kiddos even younger- learn how to swim? The statistics are what really caused me to sign up. We lived around too many unsecured pools and bodies of water for me to feel confident that an adventurous toddler wouldn't someday find themselves in over their heads. After going through the initial class with Miss Audrey and then following up every year with maintenance I can say with 100% satisfaction that my kiddo knows how to swim. We will be bringing all our kiddos here. It was amazing getting to see my baby get dunked in the pool and float themselves to safety with ALL of their winter gear on. You've got to try this!

Emily H.

We absolutely LOVED Miss Audrey. In a matter of 5 short weeks our 2 year old was floating & swimming on his own confidently. Miss Audrey's swim lessons have helped us to feel more relaxed and not so tense each time we are at a pool. I highly recommend Audrey and her program. It is an amazing investment that you will never regret.

Kate S.

Audrey was/is such a blessing to our family! She actually taught our girls how to swim and what to do in an emergency situation. We have 2 confident swimmers now. We had tried lessons elsewhere, but they were not teaching our kid's survival tactics/instincts! I highly recommend anyone considering swim lessons for your kids to take the plunge with Miss Audrey!

Brittany B.

I would highly recommend this wonderful resource to everyone with young children! My granddaughter is five years old and had a terrible fear of water, even though she had previously been enrolled in swimming lessons. After one week of lessons with Miss Audrey, she conquered that fear. She was so pleased with herself, and I was so proud of her! Miss Audrey's gentle and encouraging teaching was just what she needed to conquer her fear. Thank you so very, very much, Miss Audrey!

Susan L.

Miss Audrey is amazing! She worked with our 4 and 5 year olds on our schedule in the spring. As a mom just having our third and the summer was coming up, I feel so much better knowing they are both safe!!! I'm sure we will be bringing our new little one to her very soon!

Sarah C.

We're so happy to have found Miss Audrey! Our three grandsons had different needs and she was able to work with effectively with each. Our two-year-old learned to perfectly execute swim-float-swim within six weeks. We're so happy he can be safe in water. We have a 5-year-old that loved being in a pool but was afraid to go under water so was "stuck" with limited skills. During the very first lesson she was able to have him go under water. Within two weeks he was like a different child, completely comfortable and easily back-floating and swimming under water. Our greatest concern was for the 5-year old's twin, who is on the autism spectrum and has limited use of one arm. She was incredibly patient with him, gentle but firm, and was able to teach him to float on his back. While our target was drowning prevention, this also greatly increased his independence and enjoyment in the water.

Jeff Q.

Audrey is amazing! Absolutely wonderful with young kiddos! Our daughter LOVED going to her ISR lessons & enjoys swimming thanks to the foundation Audrey established & maintained with her. We are forever grateful for Audrey and the peace of mind she's given us (through ISR lessons) as parents when we're around water with our girls.
